

SECURITY

Security is the degree of resistance to, or protection from, harm. It applies to any vulnerable and/or valuable asset, such as a person, dwelling, community, item, nation, or organisation ... (Wikipedia)

We offer full design, consultation, supply, installation and maintenance of all types of security systems. Integration of our smart intelligent systems, enables you to monitor every single element of your assets. Intruder alarms, CCTV and door access systems for example can be programmed to automatically notify keyholders or emergency services to ensure that activations do not go unnoticed.

GB Integrated Systems Ltd. are an SSAIB accredited company, therefore you can be assured that all our security systems are designed and delivered to the latest British, European and industry standards without compromise.

For your peace of mind all of our systems incorporate only the best products from leading manufacturers guaranteeing quality throughout all components.

GB Integrated Systems Ltd. design, supply and install security systems for any environment to suit your requirements and budget
